Itinerary

Our Avila Beach See Canyon half day bike tour is our easiest and most family friendly bike tour. It's a diverse tour with a great combination of bike paths and scenic roads with coastal views, watchable wildlife and a few wineries as well. Our relatively easy cycling route starts at the trailhead for the Bob Jones City to the Sea Bike Trail and follows a scenic creek side bike path all the way to the picturesque seaside town of Avila Beach. Bicycling a short distance further along a classic beachside road, we come to Harford Pier, where local fishermen offer us their catch and sea lions cavort under the pier. Retracing part of our cycling route inland, we detour up See Canyon to [Kelsey See Canyon Winery](#) and enjoy a [gourmet picnic lunch](#) while listening to peacocks. After lunch, it's a short ride back back downhill and along the bike trail to the end of the tour. The cycling is relatively easy with much of it along a dedicated bike path and there are many non-winery attractions along the way. With so much to see and do in such a compact area, Avila Beach is truly an ideal destination for casual cyclists.

Distance/Difficulty/Terrain: 11 miles with an option to add 6 additional miles. Easy to Moderately Easy. Mostly level with one section of gradual to moderate climbing on the 11 mile route (elevation gain/loss = 480 feet).

Climate / Weather

The climate along the Avila Beach coastal area is temperate year round. Temperatures can range from 50s to lower 80s, although daily highs are usually in the 60s or 70s. In summer there is often fog right along the coast and in winter we may encounter rain.
